ABOUT DJUG	6
HISTORY	7
MISSION AND OBJECTIVES	8
FACTS AND FIGURES	10
FACULTIES OF DJUG	11
DJUG OVER THE WORLD	46

## Rector's Greeting

Dear candidates, welcome to "Dunarea de Jos" University of Galati. With an annual average of 22 000 students, our university is the most important higher education institution in the South-East region of Romania.

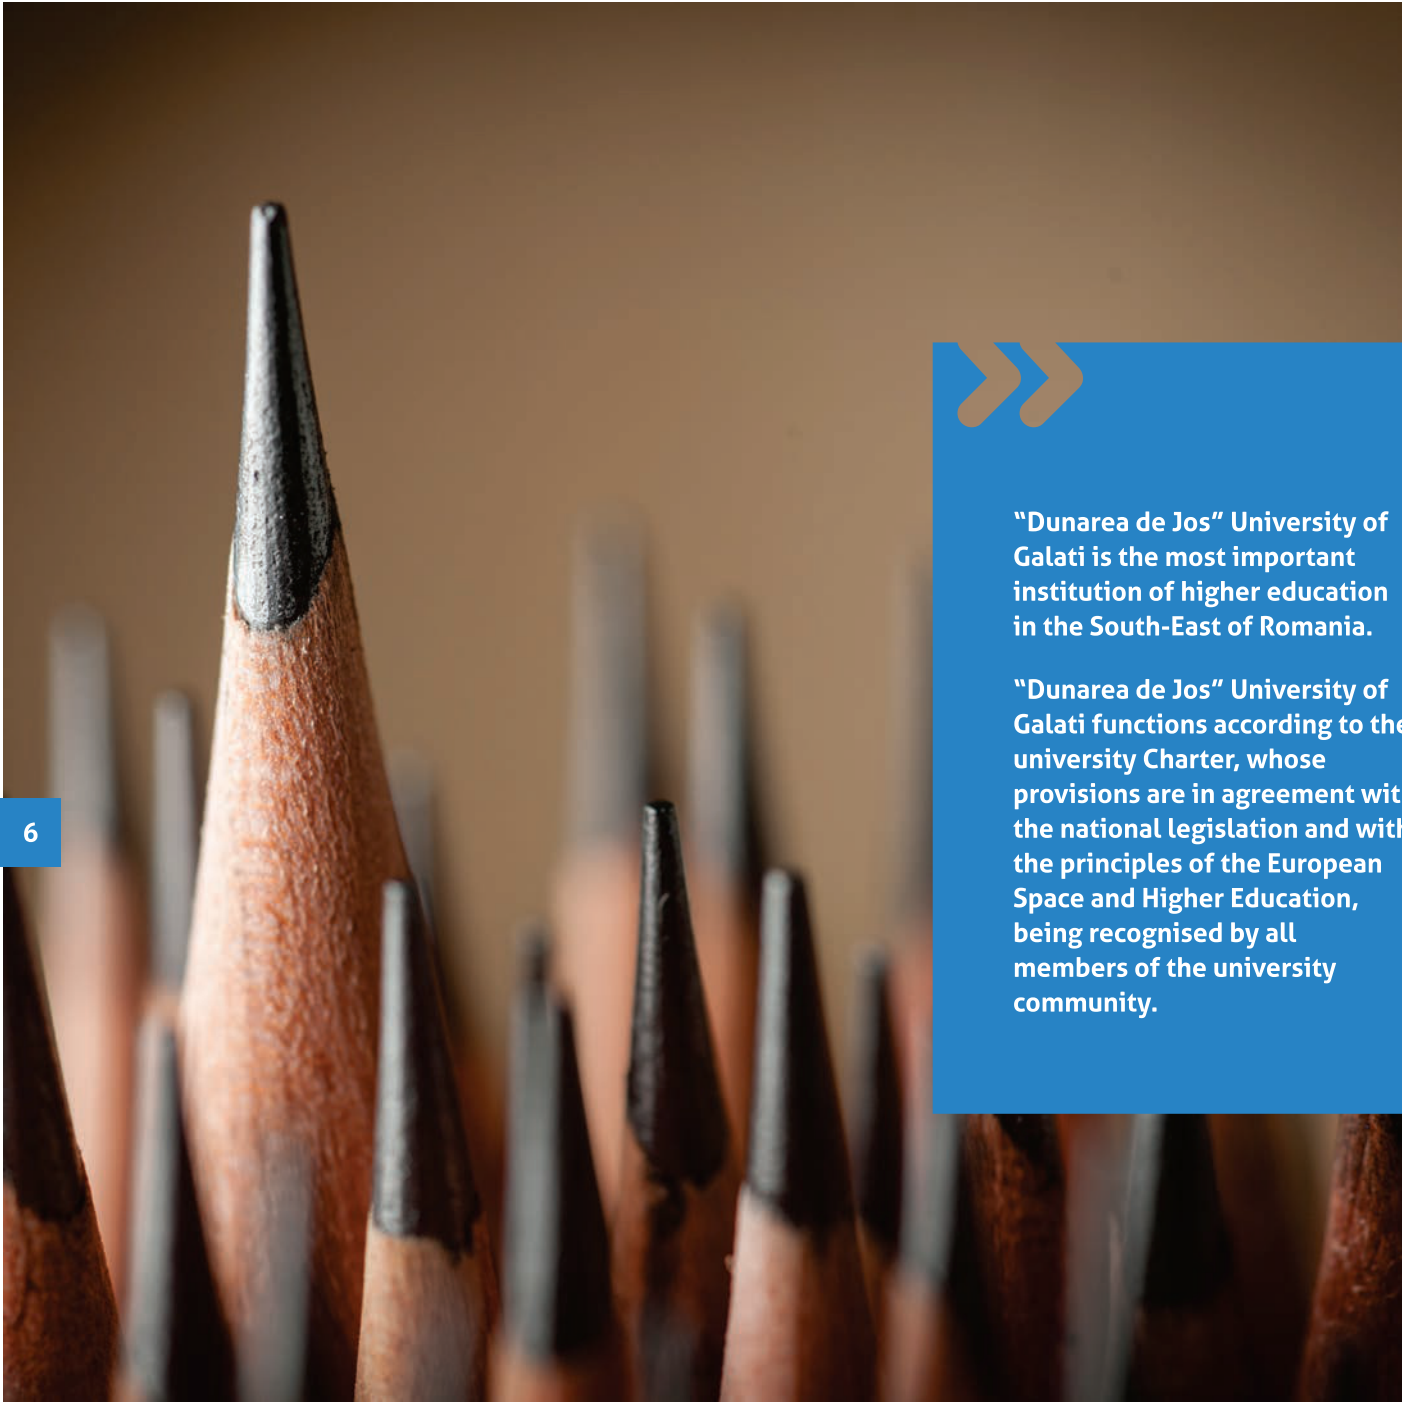

In our 14 faculties, we have over 80 undergraduate study programs, 70 master's study programs, and 18 doctoral fields. You will definitely find courses and professional training tailored to almost all your needs!

The international dimension is of vital importance to "Dunarea de Jos" University of Galati. We have more than 3 000 international students. In addition, the extent and intensity of our collaborations with other universities around the world continue to grow, we have more than 300 strong partner universities around the globe and enjoys close research collaborations with its partners in addition to building research and educational programmes.

Great ideas change the world, and we are driven by the desire to develop sustainable technologies that create jobs and new opportunities. At DJUG, researchers and students collaborate with industry and government to create innovative solutions at the intersections of engineering and creativity, theory and practice, and university and society.

"Dunarea de Jos" University of Galati has a vision for a better world, and we invite YOU to join us in realizing that vision!

Puiu Lucian GEORGESCU  
Professor PhD  
RECTOR

**“Dunarea de Jos” University of Galati is the most important institution of higher education in the South-East of Romania.**

**“Dunarea de Jos” University of Galati functions according to the university Charter, whose provisions are in agreement with the national legislation and with the principles of the European Space and Higher Education, being recognised by all members of the university community.**

# History

**The history of higher education in Galati covers the following stages:**

- 1948** establishment of the Land Improvement Institute
- 1951** establishment of the Naval-Mechanical Institute
- 1953** merging the Naval-Mechanical Institute with the Agronomic Institute and with the Fish Farming and Fishing Institute (transferred from other university centres) and the establishment of the Technical Institute in Galati
- 1955** merging the Technical Institute with the Food Industry Institute in Bucharest
- 1957** transforming the Technical Institute into the Polytechnic Institute
- 1959** establishment of the Pedagogic Institute and relocation of the Land Improvement Institute to Iași
- 1974** establishment of the University of Galati by merging the Polytechnic Institute with the Pedagogic Institute (State Council Decree of 20 March 1974)
- 1991** the University of Galati becomes "Dunarea de Jos" University of Galati (Government Decision of 4 January 1991)

In the structure of the above mentioned institutes, there were a series of study programmes that were unique in the country: Naval Constructions, Harbours and Ship Exploitation, Food Industry, Fish Farming Technology, Cooling Devices - which meant that an important creation process on elaborating educational curricula and syllabi, lectures, laboratory equipment etc., presently being used in other university centres around the country, was fully the work of the academics in Galati higher education.

## Mission and Objectives

---

A forward-thinking, modern and student-oriented institution, "Dunarea de Jos" University of Galati has a firm commitment to generate and transfer knowledge to society through:

- Initial and continuous education - through undergraduate and postgraduate programmes for self-development and career orientation, in an attempt at meeting the demands of the social and economic environment;
- Research, development, innovation and technology transfer - through individual and collective creativity in science, engineering, economics, arts, letters, sciences, humanities, medicine, legal sciences, providing sports performance and physical development and the dissemination of results.

The university offers all members of the community the necessary conditions for putting into practice their personal aptitudes by means of education, scientific research and social-cultural activities.

"Dunărea de Jos" University of Galati assumes the role of cultural and civic centre meant to contribute to the formation and dissemination of cultural values, to promote pluralism of options and the development of political and civic culture.

The University also assumes the role of scientific and technological creation pole, to support all economic, educational and social entities in the region.

Its mission is to promote free thinking and the values attached to the principles of the universality of knowledge.

## The university fulfils its mission by achieving the following objectives:

---

- » Creating specialists with superior training in education, science and culture, health, technology, economics, judicial and social activities, according to the study programmes included in the structure of the university, to the educational standards and to the needs of society;
- » Updating and improving the training of specialists by master programmes, doctoral studies, post-doctoral studies and continuous training;
- » Ensuring the quality of teaching activities at national and international standards;
- » Improving the curricula, the syllabus and the teaching and evaluation methods;
- » Improving education based on transferable credits, to ensure students the possibility to transfer from one study programme to another, and to obtain international recognition of the diplomas awarded by the university;
- » Development, diversification and results from computerising the teaching-training process;
- » Uncovering, stimulating and valorizing the aptitudes of students and giving special attention to individual values.

## Facts and figures

---

The academic community of "Dunarea de Jos" University of Galati is composed of the following:

- » 22 000 students
- » 1000 teaching staff
- » 14 faculties
- » 81 Bachelor Study Programmes
- » 52 Master Study Programmes
- » 4 Doctoral Schools
- » 18 Doctoral Study Programmes
- » 349 doctoral students
- » more than 3000 international students
- » "Dunarea de Jos" University of Galati has concluded more than 300 partnership agreements with universities from 50 countries

10

In order of the teaching and research activities be carried out in optimal conditions, the university has:

- » 38 research centres
- » 3 student campuses
- » accommodation for 2800 students
- » 3 cafeterias
- » 12 reading rooms
- » 1 student chapel
- » 2 gyms
- » 1 medical office
- » 1 first-aid point

**FACULTIES OF  
"DUNAREA DE JOS" UNIVERSITY OF GALATI**  
Tradition in performance

**YOUR CAREER  
OUR PRIORITY!**

**The Faculty of Engineering** is a strong branch of "Dunarea de Jos" University of Galati through its academic offer, the quality of the teaching staff and modern teaching and research spaces.

Studies are focused towards national and international subjects, increase contentment of the students and employees, promoting values during the development process of the human resources, multidisciplinary cooperation in all segments of teaching and scientific research activities.

# Faculty of Engineering

A FACULTY FOR YOUR FUTURE!

## **UNDERGRADUATE PROGRAMMES (4 YEARS)**

- Mechanical engineering
- Thermal systems and equipment
- Automobile construction technology
- Road motor vehicles
- Economic industrial engineering
- Engineering and environmental protection in manufacturing
- Hydrotechnical setups and environmental protection
- Materials science
- Applied informatics in material engineering
- Medical engineering

## **MASTER PROGRAMMES (2 YEARS)**

- Quality management in industrial engineering
- Designing and simulation in welding engineering
- Modelling and simulation in mechanical engineering
- Thermal systems and equipment and environment protection
- Environment quality and durable development
- Durable development and security in manufacturing (in English)
- Advanced materials and innovating technologies
- Advanced concepts in vehicle design and operation

## **PhD PROGRAMMES (3 YEARS)**

- Mechanical engineering
- Industrial engineering
- Materials engineering

**The Faculty of Naval Architecture**, the only one in Romania, with a tradition over six decades in higher education, has as a main performance criterion training naval architects recognised worldwide for a long term, motivational and fascinating career.

Through its mission assumed by the entire teaching staff to continue the tradition of the Romanian naval school in higher education and quality, an efficient teaching, a competitive scientific research and with qualified service towards the community, the Faculty of Naval Architecture contributes at educating general and specific knowledge for the graduates, to develop professional and outstanding personalities in engineering, research and naval designing.

# Faculty of Naval Architecture

---

WE BUILD THE FUTURE TOGETHER!

## **UNDERGRADUATE PROGRAMMES (4 YEARS)**

- Naval architecture
- Naval systems and equipment

## **MASTER PROGRAMMES (2 YEARS)**

- Naval architecture (in English)

## **PhD PROGRAMMES (3 YEARS)**

- Naval hydrodynamics
- Naval structures

**The Faculty of Automation, Computer Science, Electronics and Electrical Engineering** is the second biggest faculty, within "Dunarea de Jos" University of Galati, regarding the number of students. The faculty's mission is defined by two activity directions, teaching and research and it is completed by the social role fulfilled in the local and regional space.

Being **the only one in the South-East region** of the country, the faculty offers highschool graduates the necessary conditions to achieve qualifications in the field of Automation, Computer Sciences, Electronics and Electrical Engineering.

The teaching activity running in the faculty has the objective to educate students with high qualification, capable to integrate and to harness their skills in industry, research or other fields of the economical-social life.

# Faculty of Automation, Computer Sciences, Electronics and Electrical Engineering

---

A GATEWAY TO YOUR FUTURE!

## **UNDERGRADUATE PROGRAMMES (4 YEARS)**

- Power electronics and electrical drive
- Electromechanics
- Electrical engineering and computer science
- Electromechanics (in french)
- Applied electronics
- Telecommunications networks and software
- Computer science
- Automation and applied informatics

## **MASTER PROGRAMMES (2 YEARS)**

- Effective usage of energy and regenerating sources
- Advanced electronical systems
- Advanced conducting information systems
- Advanced information technology
- Power electronics and advanced conversion systems

## **PHD PROGRAMMES (3 YEARS)**

- System engineering
- Computer science and information technology
- Electrical engineering

**The Faculty of Food Science and Engineering** has a tradition of 69 years in being the oldest Faculty of Food Industry in Romania and running top educational and research programmes at a national level.

The faculty offers to students a modern infrastructure for fundamental and applied research which permits the consolidation of their education and develops their initiative, being national and international recognised for its high professional standards and high quality obtained results.

# Faculty of Food Science and Engineering

PARTNERSHIP FOR PERFORMANCE!

## **UNDERGRADUATE PROGRAMMES (4 YEARS)**

- Food products engineering
- Food products engineering (in English)
- Food control and examination
- Food control and examination (in English)
- Pisciculture and aquaculture
- Technology and control in public food service
- Fishing and fish industrialization
- Entrepreneurship in food production
- Food industry biotechnology

## **MASTER PROGRAMMES (2 YEARS)**

- Food control, examination and safety
- Food science and engineering
- Aquatic bioresources science and engineering
- Nutrition
- Engineering and management in food service and agrotourism
- Biotechnology of natural resources
- Control and examination of the environment quality

## **PhD PROGRAMMES (3 YEARS)**

- Food engineering
- Industrial engineering
- Biotechnologies

**The Faculty of Engineering and Agronomy in Braila** started in 1972 when the Faculty of Mechanics within the university opened a department for evening engineers on the industrial platform in Braila, in full development back then.

At the same time, as a consequence upon the community as well as on the involvement of those interested in the high education in Braila, on 15th of May 1990 the decree of establishing the Faculty of Engineering in Braila appears, as one of the 16 university centres developed by the "Dunarea de Jos" University of Galati in Galati and the university's first extension in another city.

# Faculty of Engineering and Agronomy in Braila

---

COME TO BECOME AN ENGINEER!

## **UNDERGRADUATE PROGRAMMES (4 YEARS)**

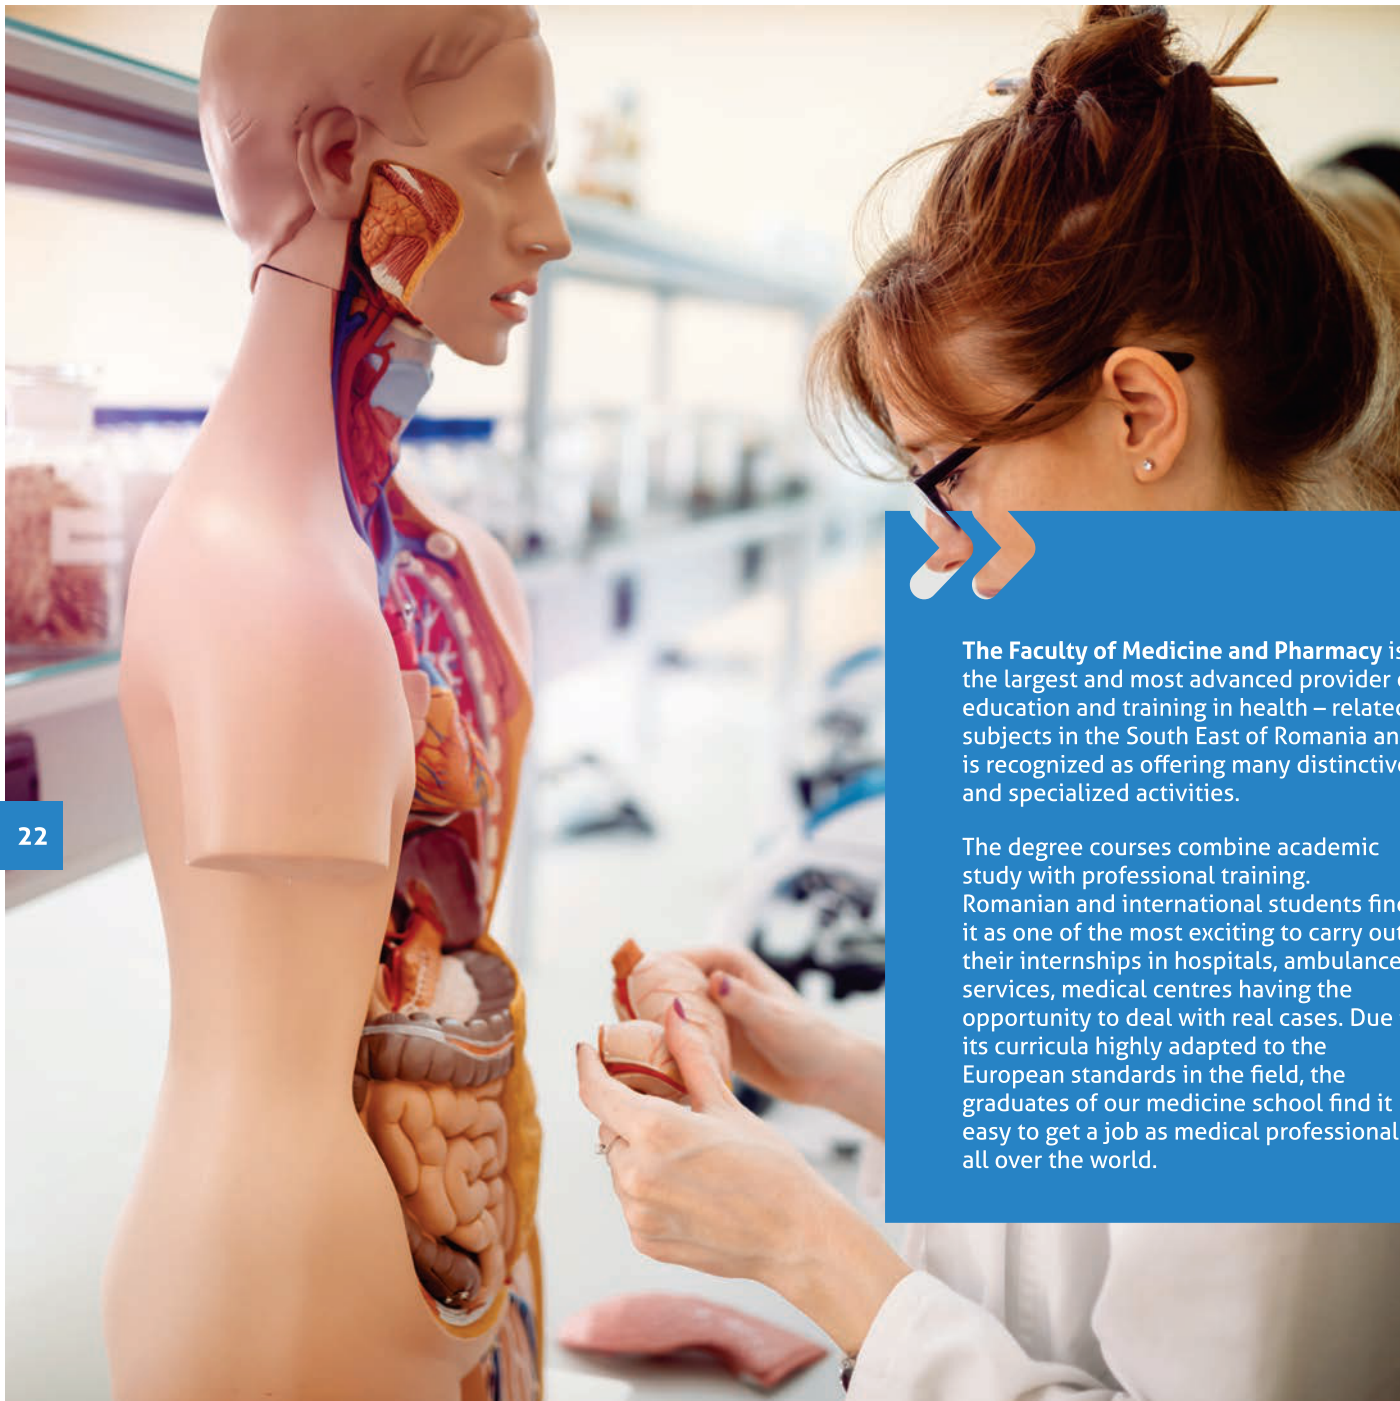

- Agriculture
- Technological equipment for constructions
- Engineering and management of technological resources in constructions
- Engineering of biotechnical and ecological systems
- Economical engineering in the field of mechanics
- Machines and equipment for agriculture and food industry

## **MASTER PROGRAMMES (2 YEARS)**

- Dynamics of machinery and technological equipment
- Environment engineering and protection
- Sustainable agriculture

## **PhD PROGRAMMES (3 YEARS)**

- Mechanical and industrial engineering
- Fundamental and engineering sciences

**The Faculty of Medicine and Pharmacy** is the largest and most advanced provider of education and training in health – related subjects in the South East of Romania and is recognized as offering many distinctive and specialized activities.

The degree courses combine academic study with professional training. Romanian and international students find it as one of the most exciting to carry out their internships in hospitals, ambulance services, medical centres having the opportunity to deal with real cases. Due to its curricula highly adapted to the European standards in the field, the graduates of our medicine school find it easy to get a job as medical professionals all over the world.

# Faculty of Medicine and Pharmacy

---

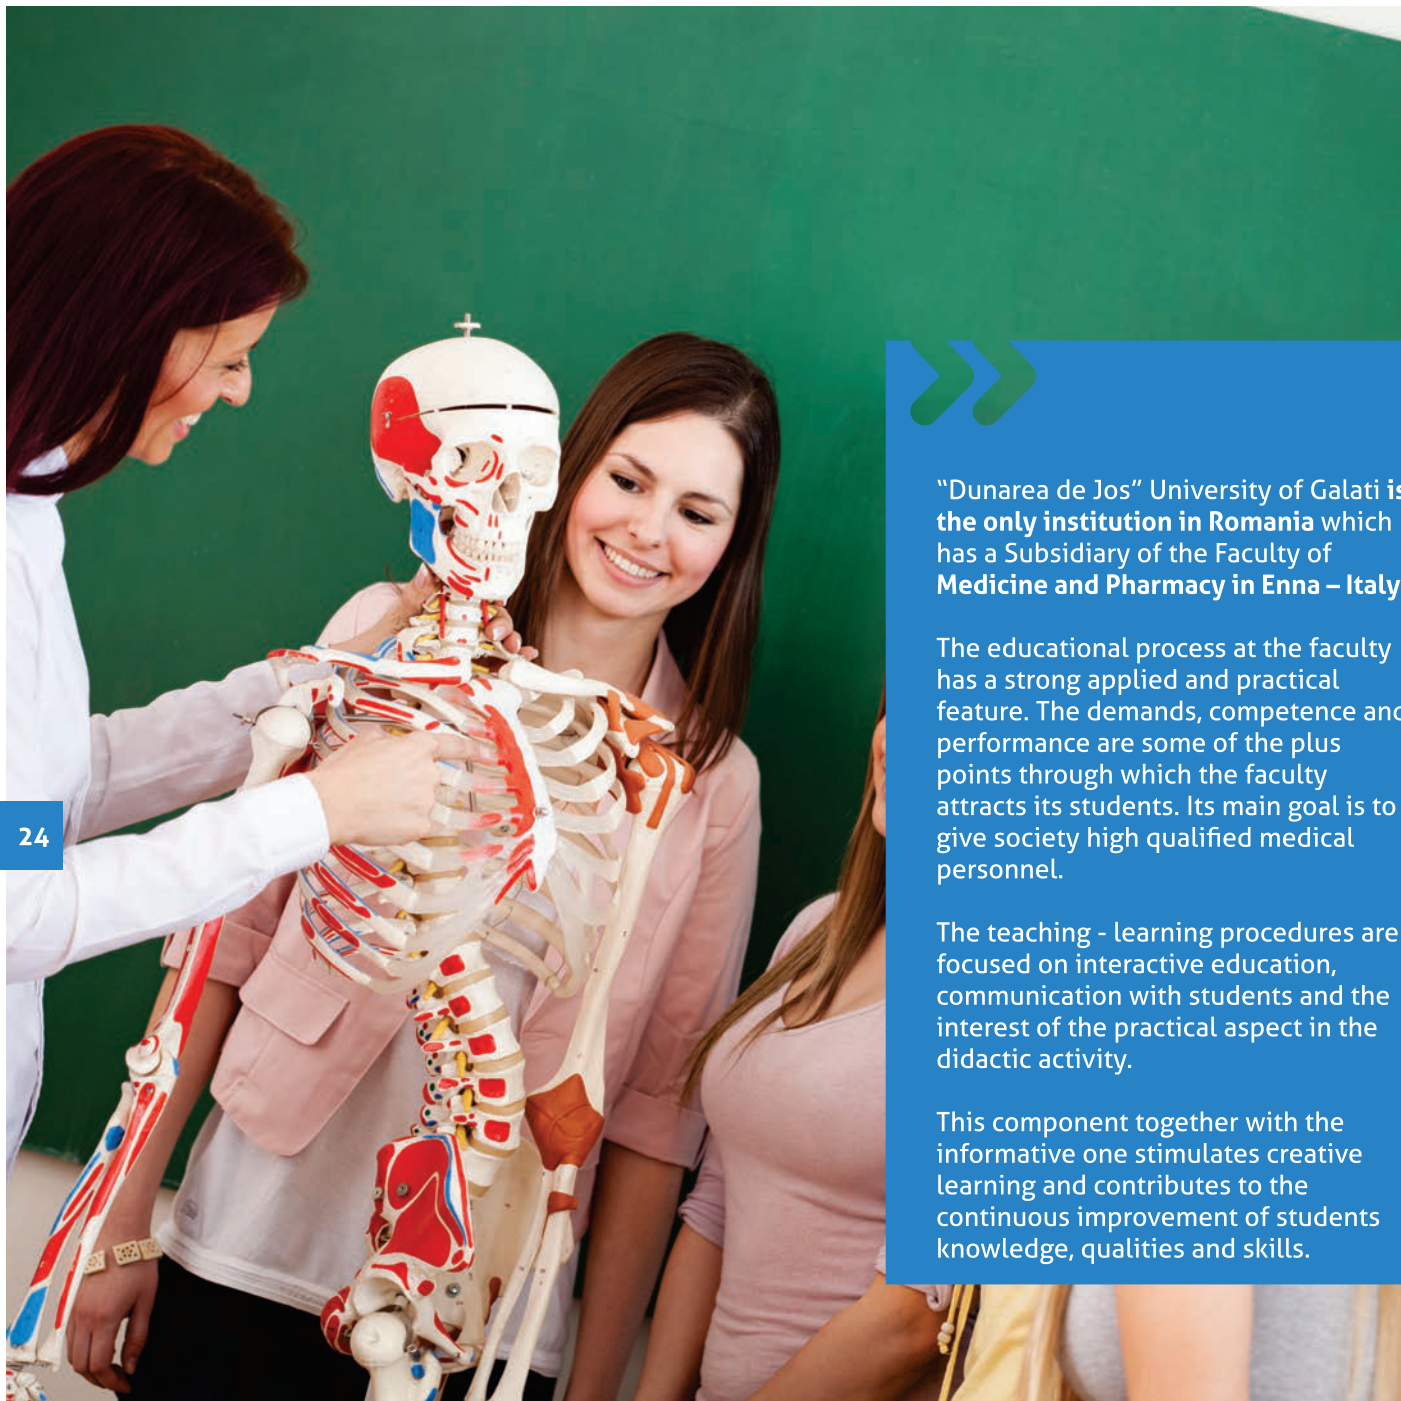

PRIMUM NON NOCERE

## **UNDERGRADUATE PROGRAMMES**

- Medicine (6 years)
- Dentistry (6 years)
- Pharmacy (5 years)
- General medical assistance (4 years)
- Midwives (4 years)
- Dental technology

## **PhD PROGRAMMES (3 YEARS)**

- Medicine
- Pharmacy (5 years)

“Dunarea de Jos” University of Galati is the only institution in Romania which has a Subsidiary of the Faculty of Medicine and Pharmacy in Enna – Italy

The educational process at the faculty has a strong applied and practical feature. The demands, competence and performance are some of the plus points through which the faculty attracts its students. Its main goal is to give society high qualified medical personnel.

The teaching - learning procedures are focused on interactive education, communication with students and the interest of the practical aspect in the didactic activity.

This component together with the informative one stimulates creative learning and contributes to the continuous improvement of students knowledge, qualities and skills.

## Subsidiary of the Faculty of Medicine and Pharmacy in Enna - Italy

---

### **UNDERGRADUATE PROGRAMMES**

- Medicine (6 years)
- General medical assistance (4 years)

## Subsidiary of the University in Buzau

---

### **UNDERGRADUATE PROGRAMMES**

- Agronomy

### **LONG DISTANCE LEARNING**

- Physical and sports education
- Law

**The Faculty of Sciences and Environment** has a tradition of over 50 years regarding the education of high school graduates in the field of exact sciences (mathematics, computer science, physics and chemistry).

With the present study programmes the faculty trains professors of mathematics, computer science, physics and chemistry for the preuniversity and university education, specialists in various fields like: programmers, network and system administrator, data base specialists, assessors, respondents, environment analysts and auditor, inspector for environmental protection, meteorologists, scientists in research and control laboratories in manufacturing units and in medical and pharmaceutical field, environment experts, management specialists in structure protected areas and in national parks.

# Faculty of Sciences and Environment

EDUCATION MEANS POWER, KNOWLEDGE MEANS FREEDOM

## **UNDERGRADUATE PROGRAMMES (3 YEARS)**

- Mathematics informatics
- Pharmaceutical chemistry
- Environmental science
- Medical physics

## **MASTER PROGRAMMES (2 YEARS)**

- Environment monitoring and management
- Didactic mathematics
- Analysis and control of agrochemical, pharmaceutical and cosmetical products

## **PHD PROGRAMMES (3 YEARS)**

- Industrial engineering
- Chemistry

**The Faculty of Letters** has a tradition of over fifty years in organizing university study programmes.

The lecture rooms and laboratories are modernly equipped. At the same time the faculty owns proper equipment for the study programmes: simultaneous translation and interpreting equipment, translation software, access to electronical data bases, T.V. studio.

Through the university's, the faculty is in possession of a video conference system used in distance teaching and research activities with national and international partners. It can be also added the access to hardcopy documents and electronic data bases which the faculty owns due to the collaboration agreements with the Romanian Academy, British Council, Fulbright Commission, AUF accessible in the lecture room, the Dialogis Cultural Studies Centre and the Cambridge English and IELTS Examination Centre.

# Faculty of Letters

PER ASPERA AD ASTRA

## **UNDERGRADUATE PROGRAMMES (3 YEARS)**

- English language and literature - French language and literature
- French language and literature - English language and literature
- English language and literature - Romanian language and literature
- Romanian language and literature - English language and literature
- French language and literature - Romanian language and literature
- Romanian language and literature - French language and literature
- Journalism
- Applied modern languages (English - French)

## **MASTER PROGRAMMES (2 YEARS)**

- Translation and interpreting (in English)
- Literature, film and cultural representations (in English)
- Specialized discourse. Terminology. Translation (in French)
- Identity, interculturalism, multiculturalism in Romanian and European literature
- Communication and mass-media production techniques

## **PhD PROGRAMMES (3 YEARS)**

- English and translation
- English and American literature
- French language
- French literature
- Romanian literature

**The Faculty of History, Philosophy and Theology** appeared as an independent structure in 2004 and it developed from the following majors: History-Geography (1992), History-Philosophy (1994), Theology - Romanian language and literature (1992).

Students get involved in scientific activities, debates and round tables, book release, national and international scientific sessions. Due to the high quality of high education, set to European standards, the educational offer is flexible, set for the requirements of the labour market and Romania's social-economic environment and the European Union.

# Faculty of History, Philosophy and Theology

---

DECIDE FOR YOURSELF. CHOOSE YOURSELF.

## **UNDERGRADUATE PROGRAMMES (3 YEARS)**

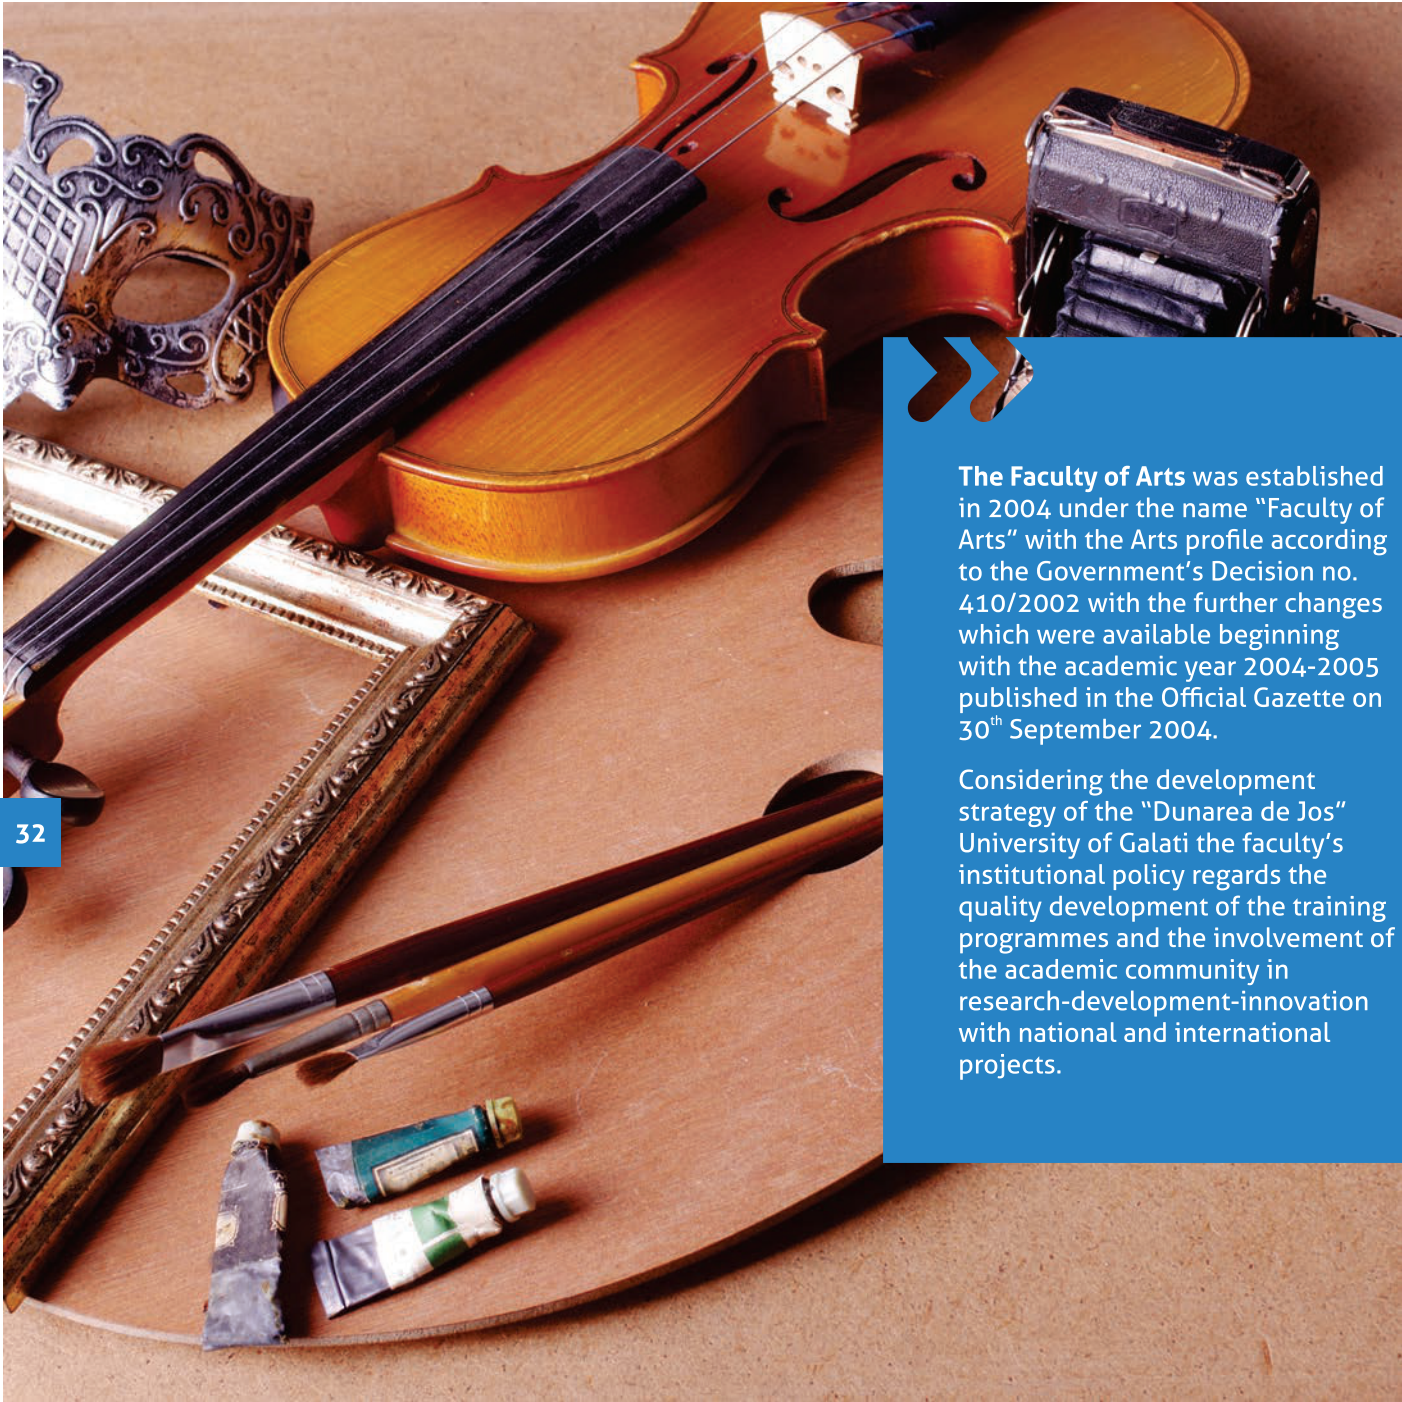

- Philosophy
- History
- Orthodox theology and social assistance
- Sociology
- Human resources
- International relations and European studies
- Sacred art

## **MASTER PROGRAMMES (2 YEARS)**

- Geopolitics and East-European cultural and social interferences (interdisciplinary with Philosophy and Sociology)
- Social philosophy. Theory and practice of conflict resolution

## **PHD PROGRAMMES (3 YEARS)**

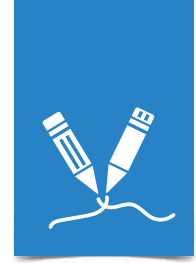

- History

**The Faculty of Arts** was established in 2004 under the name "Faculty of Arts" with the Arts profile according to the Government's Decision no. 410/2002 with the further changes which were available beginning with the academic year 2004-2005 published in the Official Gazette on 30<sup>th</sup> September 2004.

Considering the development strategy of the "Dunarea de Jos" University of Galati the faculty's institutional policy regards the quality development of the training programmes and the involvement of the academic community in research-development-innovation with national and international projects.

# Faculty of Arts

THIS IS THE TRUE PURPOSE OF ART, TO LIFT US WHERE WE CANNOT.

## **UNDERGRADUATE PROGRAMMES**

- Performing arts – acting (3 years)
- Plastic arts – painting (3 years)
- Music interpretation – singing (4 years)

## **MASTER PROGRAMMES (2 YEARS)**

- Lyrical performance in theory and practice
- Theatre and performing arts

**The Faculty of Physical Education and Sport** is meant to respond to the demand of trained specialists, actual debate in the field of physical education and sport, together with other similar educational institutions.

The university degree provides the graduates of Physical Therapy the opportunity of insertion on the labour market by carrying on professional activities in hospitals, health spa resorts, polyclinics, sanatoriums, special institutions, schools and special schools, health centres, dispensary, sports centre, ensuring recovery at sport venues, in public and private institutions, in NGO's, private consulting rooms. The physical therapist provides physical, prophylactic, therapeutically and medical recovery assistance, being part of the higher educated staff specialized in ensuring the health condition of the population. Also he/she is part of the technical staff of sport teams under the qualification of masseur/masseuse.

# Faculty of Physical Education and Sport

- Law
- Medicine
- Art, culture and civilisation
- History, philosophy and theology
- Physical therapy
- Economics, geopolitics and international relations
- Pedagogy, psychology and intergenerational relations
- Nutrition and food engineering
- Science and engineering
- Tourism

The International Affairs Office actively takes part in the internationalization policy that “Dunarea de Jos” University of Galati has been constantly developing for more than 20 years. It promotes the image of the university as a center of advanced education, scientific research and culture with the oldest tradition in the South-Eastern part of Romania.

One of its major objectives is to recruit foreign students by disseminating information about the academic life and all the facilities provided by the University. It also deals with the management of international affairs such as academics and students exchange, academics and students mobility by counselling, monitoring and keeping record of such mobility and internship periods spent abroad. At the same time it provides counselling and guidance to the foreign academics and students who develop various activities in the university.

# International Affairs

ENRICHING CONNECTIONS IS OUR GOAL!

## INTERNATIONAL PROGRAMMES:

### **ERASMUS + PROGRAMME**

Students from Erasmus+ partner universities may spend one or two semesters at our university within the Erasmus+ Programme.

### **VISITING STUDENT (FREE MOVER)**

A visiting student is a foreign student who, during his/her current studies at the university where he/she is registered (Home University), chooses to attend certain courses and take the courses exams, in another university (Host University) for a semester up to an entire academic year without receiving a diploma, the exams ECTS being recognized by both institutions.

### **EUGEN IONESCU - AUF (Francophone University Association)**

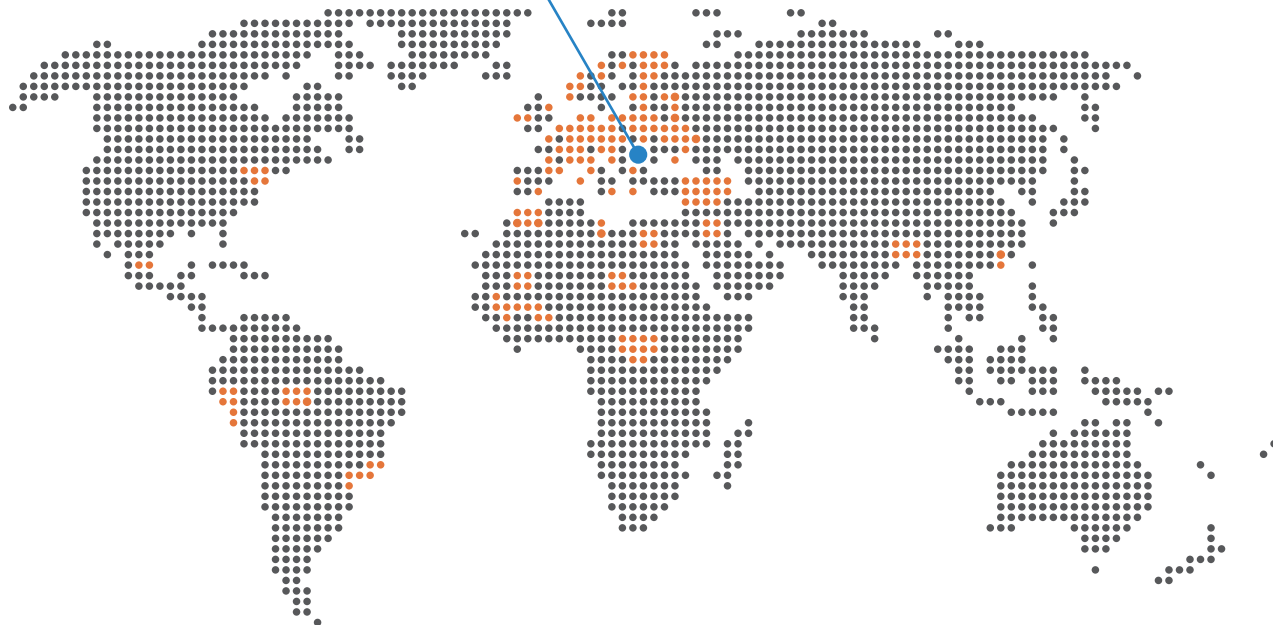

Scholarship Programme "Eugen Ionescu" allows doctoral and postdoctoral students from Universities in members or observers countries of OIF and Algeria, to benefit from a research internship of 3 months in Romania in one of the 26 AUF member universities

### **PREPARATORY YEAR**

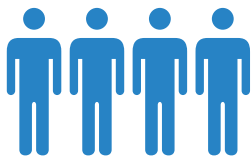

The one-year, full-time academic programme in Romanian as a Foreign Language is addressed to foreign citizens who wish to gain entry to a Romanian degree programme (bachelor, master, PhD level).

STUDENTS & TEACHERS

PIN POINT AREA

46

More than **3000 INTERNATIONAL STUDENTS**

from countries like: Republic of Moldova, Ukraine, Italy, Albania, Israel, Syria, Turkey, Tunisia, Morocco, Lebanon, Greece, Bulgaria, Sweden, Palestine, Iran and many others.

Over **300 collaboration agreements** with

70 institutions from EU countries and 66 institutions from non-EU countries. Over 60 "Eugen Ionescu" PhD and postdoctoral researchers from Madagascar, Cameroon, Ivory Coast, Tunisia, Algeria, Egypt, Togo, Senegal, Morocco, Benin. Visiting professors of some prestigious universities from Belgium, Bulgaria, France, Italy, Germany, Portugal, Japan, Turkey.
